

What makes CCFI unique!

RaidaPay is a user-friendly application that serves the CCFI token limited presale. The goal of RaidaPay is to make the CCFI DeFi utility token accessible to a wide range of users, including those new to the DeFi sector. The CCFI token is already transactable on 18+ different blockchains and more partnerships are planned for the future. The value of the CCFI token is expected to grow naturally through DeFi protocols, staking, farming, liquidity mining, trading incentives and more eco-friendly DeFi solutions are planned for 2023. The token is currently transacting using bridges with partners such as Nuls, HECO, OKEx, and Nerve with Sablier Finance CCFI tokens are vested instantly into your Wallet to protect the project, prevent dumping or manipulatory actions and to protect all holders from loosing value.

What does CCFI solve!

CCFI token is an alternative decentralized finance token. We aim to solve liquidity problems.

DeFi, Staking, Farming, Web3
